Dear Parents/Guardians,

Attached you will find the most recent information from the NJ State Department of Health regarding the recent outbreak of A H1N1 (Swine Flu). Please take a few moments to read the letter as it contains important information regarding symptoms, treatment and prevention as well as reliable sources for additional information.

In addition, because most cases of A H1N1 are comparable to seasonal flu, the Department of Health has advised schools to treat it as such. Therefore, districts across the state will not be closing, as previously reported, unless there are a large number of confirmed cases within a district.

Please rest assured that our district is continuing with its daily disinfecting procedures to provide a safe, clean environment for students and staff. We will also continue to monitor this situation and provide updated information to parents/guardians as it becomes available.

Thank you.

Ronald L. Meinders  
Superintendent
