**\*\*IMPORTANT NOTICE\*\***  
**REGARDING AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs)**

---

To: Groups Using Stafford Township School District Facilities After School Hours  
From: Stafford Township Board of Education

---

The Stafford Township School District recognizes lives can be saved with the proper use of Automated External Defibrillators (AEDs). There are, however, certain **mandatory** procedures which **must** be followed in order to ensure proper use of these devices. In order to ensure that groups utilizing our facilities after regular school hours have been notified of these **mandatory** procedures, we offer the following information:

**Location of AEDs:**

The following locations within the Stafford Township School District are each equipped with at least one AED:

- Administration Building
- Education Center
- Ocean Acres School
- Oxycocus School
- McKinley Avenue School
- Ronald L. Meinders Primary Learning Center
- Intermediate School
- Stafford Township Arts Center

We would encourage you to be familiar with the location of the AED so that it can be immediately accessed in the event of an emergency.

**Mandatory Requirements for Proper Use of AED:**

According to New Jersey State Law (N.J.S.A. 2A:62A-25, et. seq.), there are certain procedures that must be followed when using the AED:

1. Person using AED must have successfully completed a training program and hold a current certification in cardio-pulmonary resuscitation (CPR) from the American Red Cross, American Heart Association or other Department of Health and Senior Services approved program. Or, in the alternative, the person using the AED must be licensed by the Department of Health and Senior Services as a Paramedic, Emergency Medical Technician (EMT)-D, or a First Responder-D.
2. Person using the AED must request emergency medical assistance from the appropriate first aid/rescue squad as soon as practicable.

We recommend that your group ensure that at all times while using our facilities, there is at least one person from your group that meets the above requirements, so that if an emergency occurs, your group can make use of the AED.

**Available Resources:**

If you choose to utilize the AED, it is the responsibility of your group to ensure that the person operating the AED meets the above requirements and follows the proper procedures. However, we will be providing CPR and AED approved training programs to members of our staff and we will make these programs available to your group.
