

Notification of the Use of Pesticides

(This notice should be received at least 72 hours prior to pesticide use)

Date Issued: May 4, 2022

To: Parents/guardians of students, and staff of [PLC/McKinley Schools]

From: The School IPM Coordinator: Michael Nikola Phone Number: 609-978-5700

This notice is to advise you that the following pesticides will be used at [insert name of school]:

Pesticide Common Name TALSTAR	Pesticide Trade Name TALSTAR PROFESSIONAL INSECTICIDE	EPA Registration Number 279-3206
Pesticide Common Name	Pesticide Trade Name	EPA Registration Number

Location of the pesticide application: AREA BETWEEN PLC & MCKINLEY SCHOOLS

Reason for the pesticide application: TICK TREATMENT

If an indoor application, the date and time it is planned:

DATE: _____ TIME _____

If an outdoor application, 3 dates must be listed, in chronological order, on which the outdoor application may take place if the preceding date is canceled; and the time the application is scheduled to occur.

DATE / TIME MAY 7, 2022 DATE / TIME MAY 14, 2022 DATE / TIME: MAY 21, 2022

Description of the possible adverse effects of the pesticides as per the Material Safety Data Sheets for the pesticides to be used, if available:

PLEASE SEE ATTACHED SAFETY DATA SHEETS

Pesticide product label instructions and precautions related to Public Safety.

Note: as required by law, we are advising you of the following statement:

The Office of Pesticide Programs of the United States Environmental Protection Agency has stated:

"Where possible, persons who potentially are sensitive, such as pregnant women, infants, and children, should avoid any unnecessary pesticide exposure."

REMEMBER: Whenever a non-low impact pesticide is used on school property there is also a Restricted Entry Interval (REI) that begins when the pesticide application ends. This Restricted Entry Interval last for seven hours unless the product label uses NUMERIC LANGUAGE, e.g., 4hours or 12 hours; directing a longer or shorter period of time. If the product label does not discuss Restricted Entry the period of time defaults to seven (7) hours.

Talstar P

PROFESSIONAL
INSECTICIDE

EPA Reg. No. 279-3206

For use to supplement application of preconstruction Bora-Care primary treatments

24(c) Supplemental Label

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This label must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

This 24(c) label is only approved for use in conjunction with a pre-construction Bora-Care primary treatment. This label is not intended to authorize stand-alone use for the Exterior Perimeter / Interior Spot labeling in the State of Mississippi.

When a pre-construction Bora-Care primary treatment is used for control of subterranean termites and is applied according to label directions for use, TALSTAR PROFESSIONAL insecticide must be applied as an exterior perimeter pre-construction treatment using a 0.06% to 0.12% dilution after final grade is established. TALSTAR PROFESSIONAL must be applied to provide a continuous treated zone around the entire exterior foundation wall of the building. It is required that a complete and continuous treated zone be achieved around the entire exterior perimeter, including under any attached slabs such as garages, porches, patios, driveways, and pavement adjoining the foundation. TALSTAR PROFESSIONAL may also be applied to critical areas that include plumbing and utility penetrations (including bath traps), shower drain penetrations, along settlement cracks and expansion joints, and dirt filled porches.

For applications to the exterior perimeter and critical areas follow the instructions in the **SUBTERRANEAN TERMITE CONTROL Directions For Use** section of the Talstar Professional Insecticide label.

For MEDICAL Emergencies only, have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-(800)-331-3148 for Emergency Assistance.

For Information Regarding the Use of this Product Call 1-800-321-1FMC (1362) or visit our worldwide web site at www.fmcprosolutions.com.

As with any pesticide, always read and follow label directions.
